SAVE THE WASTE AND WIN THE WORLD WAR

State Food Administrator A. D. Wilson and Mrs. Wm. Ogden Wade Speak in Brainerd

Explain the Principles of Food Conservation and Explain Necessities for Observing the Same

An opera house crowded to the roof heard the doctrine of conservation expounded by A. D. Wilson, state food administrator, and by Mrs. William Ogden Wade, a representative of Herbert Hoover.

All Brainerd was there, housewives, laboring men, school children, woman's auxiliary, teachers, business men, etc.

The fact that Mr. Wilson's statement was an authoritative one, with first hand information and that hundreds wished to meet personally the man who was directing the food campaign in this state, caused the phenomenonally large attendance. And Mr. Wilson did not disappoint a man, woman or child. He spoke directly and to the point so that all understood him, and were convinced of the necessity of following the food administration's orders, of saving and substituting food and thus aiding to win the war for democracy.

Prayer was uttered by Rev. H. G. Stacey. The curtain then was raised slowly, revealing a class of little ones from the schools who sang two songs, one about the two crows and one about the whip-poor-will o'er the hill. Two lads dressed as crows flapped their wings in time to the rhythm of the song. Miss Somers had taught them. Another drew applause when he appeared as Uncle Sam. The high school orchestra played selections under the direction of Miss Myra Seymour, supervisor of music, and drew much applause.

Dr. R. A. Beise, mayor of Brainerd, then introduced Mr. Wilson, and he launched right into his subject. Having spoken at several meetings in Brainerd during the afternoon he had come to realize that Brainerd people were doing and trying to do all the things asked by the government. They were showing the right spirit. They were doing it not alone because the government has asked it, but because they were vitally interested in the outcome of the war.

As Minnesota was producing more than it consumed, it necessarily must aid in feeding the Allies, their troops and people. To some it seemed strange to talk conservation of wheat in Minnesota when the state raised four times as much as was needed by its own inhabitants. Four times as much meat was produced in Minnesota as was consumed by its people. Because of the large surplus in Minnesota, much was expected of this state.

The production of potatoes had been large last year. Children eating a pound of potatoes daily, and adults eating a pound and a half, would do much for the cause of food conservation, thus releasing a great equivalent in wheat, as a pound of potatoes was equal to a pound and a quarter of wheat.

The object of the food administrator was to make the supply of food go around, to get the food to those who needed it and in the form required.

Dark bread should be eaten. In normal times, France, Italy and Belgium produced but half the bread they required. War took many from the fields of agriculture. The harvest this year was short many millions of bushels. There was enough wheat in the world to feed all if properly distributed. The Allies did not have the ships and the time to make the long haul of wheat from India, the Argentine and Australia to supply their needs and so depended on the United States, their nearest neighbor.

There was no shortage of food in the United States.

Men, money and food were the big factors in winning this war and America had them all. It was in this war to the last man, the last cent and all its resources.

"Are we going to be babies and demand all the sugar or are we going to be men and tell the Allies, 'You can have all you want and we will eat the rest?'" asked Mr. Wilson.

There was a surplus of grain for bread making, but not for drinking. He was glad to say that most of Minnesota's barley this year would go into bread and not be dealt out over the bar. Minneapolis was now making enough substitute flour to furnish Iowa, Minnesota and Wisconsin. The railway were not functioning properly just now, but as soon as they were in proper shape, the fifty-fifty proportion of substitutes and wheat flour would work out well.

The state had a wealth of corn, yielding all the corn meal much any man wished to consume. He praised Minnesota zero weather which put the pep into Minnesotans.

The United States was a great meat eating country, for it converted its corn surplus into meat. Under the food regulations giving up seven-tenths of a pound of meat would release enough to give their Allies their share.

Mr. Wilson praised the hearty spirit of cooperation shown. He had words of good cheer for the war gardens of Minnesota and pleaded for their intensive cultivation this year. He hoped the women would can and can. It was a pleasure to work with the people of Minnesota, the dealers, distributors and consumers. He hoped there were no food slackers in Brainerd, and that every man, woman and child would realize that by following the food conservation rules they were aiding this country in the most vital way.

Recalled to the platform, Mr. Wilson said a few words about the delivery system in Brainerd and mentioned the meeting of business men Tuesday evening to consider lowering the cost of food distribution by cutting out some of the delivery. To make it a success there was needed the co-operation of the housekeeper as well as the grocer. The ideal plan was to go to a store, pay for what you wanted, carrying it home yourself. The ladies now had knitting bags large enough to carry a bushel of potatoes.

"Make charge accounts 3 per cent higher," said Mr. Wilson. "Make deliveries 10 cents extra. Here is how a sample account would read: 'To groceries, \$24.00; cost keeping account, at 3 per cent, 74 cents; 24 deliveries at 10c each, \$2.40."

"It is not fair to charge everybody with the excessive delivery system demanded by a few customers," said Mr. Wilson, and he hoped the merchants of Brainerd would consider the plan.

The Red Cross girls and Boy Scouts sang. Mrs. William Ogden Wade was then introduced and gave a splendid address. She gave a resume of the causes that led to the war, the atrocities committed by the Germans, the world dominion craved by the Germans and their maps published which had "Germania" imprinted on Belgium, France, the Balkans, Canada and the United States.

GEN. TUAN CHI JUI
Intended victim of assassins seeking revenge for defeat.

A conspiracy to assassinate Gen. Tuan Chi Jui, former premier and now war commissioner, has been discovered by the authorities. A number of arrests, including those of three Japanese, have been made. The plot is alleged to have been promoted by Monarchists for the purpose of avenging General Tuan's defeat of General Chang Hsun, who led the Manchurian restoration effort last July.

American Artillery Effectively Shell Enemy Front Lines

(By United Press)
With the Americans in France, Feb. 26—German working parties and the enemy front lines were effectively shelled by the American artillery, the cannonading continuing all day. The front is mud locked.

Beltrami county boys, 120 or more, passed through Brainerd today on their way to Camp Dodge, Iowa. At the depot they were met by the Red Cross, Chamber of Commerce men and Boy Scouts and given a good dinner. In addition each had received a box of lunch packed full with goodies and guaranteed to carry a man a long ways. The boys cheered the ladies and all helpers.

Supplies were brought to the train on automobiles and hot coffee just made at the depot lunch room, was distributed. The boys did not have to leave their coaches.

As the St. Paul train pulled out there were repeated cheers for the Red Cross, Brainerd and others.

The Kelliher quartet got busy and sang "We'll Can the Kaiser," and the engineer obligingly ran his train slowly so that Brainerd heard all of the fifteen odd verses.

There were tears on the platform for many sisters and other fellows' sisters were at the depot to say goodbye.

Probable Danger of Urging All to Fight to Death

(By Joseph Shaplin, United Press Staff Correspondent)
Petrograd, Feb. 26—Despite the acceptance of German made peace the mobilization and hurried preparations for the defense of Petrograd are proceeding. Small detachments of Germans are reported moving toward Petrograd from Pskoff.

The spirit of the workmen is belligerent and the defense council has issued a statement that the revolutionary council is in the greatest danger of urging all to fight to the death.

After capturing Pskoff the Germans advanced several stations and the Russians began a counter offensive. The city has changed hands several times. The garrison soldiers refuse to fight but the workmen are enthusiastically joining the revolutionary army.

Revoke Order Regulating State Bread Prices

(By United Press)
St. Paul, Feb. 26—The state safety commission has revoked the order regulating bread prices in the state. No action was taken in calling a special session of the legislature.

Over 100 aliens have registered with City Clerk Anton Mahlum in the city hall and before the close of the period, February 27, at 9 P. M., it is expected 300 will be enrolled.

Every nation is represented and many come from the Russian provinces now in turmoil, making it difficult for such an alien to tell what country he now owes his allegiance to.

Many German women and children are registering. Alien German males over 14 registered previously with Chief of Police John D. Gile.

What Germany Gets From Russia With \$4,000,000,000

The Bolshevik government of Russia, under Leon Bronstein, alias Leon Trotsky, as foreign minister, has made peace terms with Germany on the basis of giving up the whole of Poland and Lithuania, two great provinces, which in past centuries have been nations all by themselves. In addition the Bronstein or Trotsky has consented to give Germany \$4,000,000,000 indemnity. This map shows how much is carved from Russia by the Bolshevik deal with Germany. In fact, the Germans will get territory richer than Prussia and almost as populous, territory larger than any single German state.

WOMAN'S REALM

"THE BIRD OF PARADISE"

At the Brainerd Opera House Sunday, March 3rd

In view of the remarkable popularity enjoyed by the Hawaiian fad, when once the music and picturesque costumes of the islanders were introduced in the east, it seems strange that Richard Walton Tully, author of "The Bird of Paradise," should have gone so long without realizing what a superabundance of play material he had right at his feet for so many years.

Undoubtedly Mr. Tully's play, "The Bird of Paradise," has been responsible for the American invasion of Hawaiian musicians. Throughout the east there has been an epidemic of Hawaiian songs, embracing all classes of music from the dreamy "Aloha" to the syncopated "Bill Bailey and His Ukulele" and many other popular melodies.

Seldom has it been known that a dramatic play was the actual cause of the biggest musical fad known in years, but that is unquestionably true in the case of "The Bird of Paradise."

Seven years ago when "The Bird of Paradise" was first produced at the Belasco theatre, Los Angeles, by Oliver Morosco, Mr. Tully brought over from the Islands five of the native singing boys. They were introduced in the play to give it the proper atmospheric effect.

Hawaiian singers and ukulele players were no novelty at that time in Los Angeles, San Francisco and other Pacific coast cities accustomed as they were to visits of cosmopolitan crowds from everywhere. When Mr. Morosco produced the play in Los Angeles the native Hawaiians in the east created no great excitement in that city.

However, when Mr. Morosco sent "The Bird of Paradise" to New York and later to Chicago a different story was recorded. The eastern people began to grow fond of the dreamy, languorous music of the tropics. The cabarets, always alert for something new from the legitimate stage, grasped the idea eagerly.

Entertainment bureaus which supply talent for the restaurants and cafes were deluged with rush orders for Hawaiian orchestras, singers and dancers.

The original five then sang and played for a well known phonograph company and once the records were placed on sale the fad grew to tremendous proportions. It is not unusual now to see as many as a dozen Hawaiians in high class cafes in New York and the east.

Producing managers have taken their cue from the popularity of "The Bird of Paradise" and many of them are using the Hawaiian melodies in their new productions. It has been said that the makers of Hawaiian music records are unable to keep up with the demand and that almost every home has at least one ukulele, the national Hawaiian musical instrument. There seems to be no evidence of a wane in popularity of this music fad.

So great is the popularity of Hawaiian music in this country that "The Bird of Paradise" will go on record as having created the greatest musical fad this country has ever known.

I see it in my changing hair, I see it in my growing hair, My growing thirst for early news. It is a fact, I am growing old.

And so growing old is just a case of finding what one's looking for, observes the Minneapolis Journal. A man decides that the time has come for him to be old, and so instead of bracing up, ignoring the symptoms and finding some other explanation for the change in the color of his hair, he neglects his dress, walks with a stoop, uses a cane, stops taking exercise, eats too much, indulges in reminiscences, retires from business, and in general acquires the foolish habit of growing old.

He should remember that it is possible to keep a youthful spirit, an active mind, an interest in current events and a purpose to serve his fellows, and that he who does these things will always be young.

The fact that women generally decline to contract the old-age habit and that some men have also resisted the temptation to fall into it would seem to indicate that if those who do yield to it would only take the advice of Dombey to his wife, and "make an effort," they would learn how foolish and how unnecessary it is to grow old.

Rice 400 B. C.

The culture of rice is alluded to in the Talmud, and there is evidence that it was grown in the valley of the Euphrates and in Syria before 400 B. C. It was taken into Persia from India, and later into Spain by the Arabs. Thence its culture was introduced into Italy about A. D. 1498. The Spaniards are also responsible for its introduction into Peru and other sections of Spanish America during the early colonial period, but the exact date has not been definitely determined.

Tortoises and Water.

Tortoises in tropical islands require much fresh water for drinking and have often discovered springs of which the human inhabitants were ignorant. When such a fountain is found the whole surrounding district is soon covered by "tortoise roads" made by these large creatures in their journeys to and from the water.

Entire Family Serving Country.

With a husband and three sons—every male member of the family—enlisted in some unit of the United States army, Mrs. Virginia Cross of Denver, has made application for service as a Red Cross army nurse.

Dr. J. W. S. Cross, the husband and father, is a captain in the Medical corps, stationed at Fort Bliss, Tex.

The sons are Frank, twenty-four, Quartermaster's Reserve corps, Jacksonville, Fla.; Charles, twenty-one, coast defense, Fort Logan, Colo., and Wayne, seventeen, with the American expeditionary forces in France.

WAR TO DEATH, REPLY

Allies To Fight Harder To End World Menace.

Prussian War Lords Unmasked by Attitude Toward Russia Is Administration View.

Washington, Feb. 26.—The answer of the Allies to the Teutonic conquerors of Russia will be war to the death if we may judge from the temper of President Wilson and his advisers since the announcement of the arrogant and humiliating peace terms which Berlin has exacted of the Bolshevik government.

War Lords Unmasked.

The Prussian war lords, in the opinion of the administration, have been unmasked by their attitude toward Russia. They are now confessedly bent on conquest, and strengthened by success and encouraged by an appeased civil population, they now may be expected to turn toward the west with a view to securing their conquest of Belgium and northern France.

Just Beginning For Allies.

For the Allies the war is just beginning. Only the defeat of Germany on the field of battle can now "make the world safe for democracy," and secure the United States from the peril of insatiable German power.

If the Allies win, Germany will be compelled to disgorge the Russian provinces, retire from Belgium and northern France and reconstitute Serbia and Rumania. If Germany wins, she will be the greatest power in continental Europe and will grow greater, with the probable future absorption of Russian territory.

GERMANS TAKE TWO TOWNS

Capture Made After Engagement With Russians.

Berlin, via London, Feb. 26.—The German forces have occupied Reval after an engagement with the Russians. The Germans entered the city at 10:30. They have also captured Pskov, about 160 miles southwest of Petrograd.

Count von Hertling, the German imperial chancellor, announced in the Reichstag that the Russian government had accepted the German peace conditions and he added that the conclusion of peace must ensue shortly.

Americas Band Pleases Italians.

Rome, Feb. 26.—The American military band scored a tremendous success at the inter-Allied concert given in the historic Villa Borghese in the presence of 100,000 people. All the authorities of Rome were present, as also were T. N. Page, the American ambassador, and the American military officers in Rome. After the concert the band paraded thoroughfares of the city, which were crowded with 300,000 people.

Line Official Lost With Ship.

New York, Feb. 26.—John Shannon Munn, a director of the Red Cross line, and his 3-year-old daughter Betty were among those lost in the wreck of the steamer Florizel, which went on the rocks, as indicated by the following dispatch received here by C. W. Bowring from his brother in St. Johns: "Saw Captain Martin, who said he saw Jack washed off the dock shortly after the ship grounded. Betty and nurse must have drowned instantly. Ship breaking up and cargo is washing ashore."

Found Live Crab In Bottle.

A Maine fisherman claims to have pulled up a pint milk bottle with a live crab in it. It is evident that the crab had crawled into the bottle when small and stayed there until it grew so large it could not get out. The bottle was crusted with barnacles when it was pulled up, which shows it had been in the water a long time.

Must Increase Wheat Average 10 Per Cent

(By United Press)

St. Paul, Minn., Feb. 26.—That the wheat acreage for Minnesota be increased in 1918 over the 1917 acreage by 10 per cent and that every home, whether in the city or in the country, raise just as much of its own requirements as is possible is the request in an appeal issued today to the people of Minnesota by State Food Administrator A. D. Wilson, to do all that is expected of them in food production during the coming year.

"It is my belief," said Wilson, "that in view of the great need, we ought to plant wheat. Although the prices of oats and barley make these crops look attractive now, no one knows what the price on these crops will be next fall, while we know that the price of wheat will not be below \$2 at terminal points. Congress has guaranteed that regardless of the amount produced or regardless of whether the war ends or not, the 1918 crop will be bought at a minimum price of \$2 at the distributing centers, the price may be more but it cannot be less. Added to this is the fact that if there is readjustment of prices it undoubtedly will be in favor of wheat.

"Every farmer so situated that he can grow wheat advantageously—that is, if he is provided with proper equipment and has suitable soil—should plant at least 10 per cent more wheat this year than he did last year, not only because it is the safe thing to do but because it presents to him an opportunity to make his greatest contribution to the world's needs.

"The 10 per cent increase applies to the heavy wheat growing sections.

Other sections adapted to wheat growing but light in their production during recent years could easily increase to 25 per cent. The increased wheat acreage will naturally result in a decreased acreage in some other grain, probably oats, barley and corn. The seed corn situation in this state, however, is such that the corn acreage will be decreased this year even though every bit of seed corn that is available is planted," said Wilson.

Succotash—a mixture of wheat and oats—was suggested as a safe venture for older sections of the state where wheat is not generally grown.

"It is safe to say," Wilson said, "that 10 acres planted to succotash under normal conditions yields a larger return than five acres of wheat and five acres of oats in separate crops."

NORTHWEST NEWS

Want New Game Laws

Minneapolis, Minn., Feb. 26.—In order to organize to make a concerted protest against existing and proposed laws regulating fish and game, sportsmen of the state were called to meet here tonight at 6 o'clock. Following a dinner, the hunters and fishermen will organize to secure legislation more favorable to sportsmen.

Austrians Make Appeal

St. Paul, Minn., Feb. 26.—Austrians in Minnesota made direct appeal to Americans in Austria to fight against and not for militarism. When Austrians register, as required by state regulations this week, they will be asked to sign resolutions urging the Austrian people to stand behind President Wilson, to fight against autocracy. The Minnesota Public Safety Commission plans to arrange for thousands of these documents to be dropped into Austria by American aviators. J. Horbets, Austrian, volunteered the plan.

ASSAILS BOLSHEVIKI IN U. S.

Sen. McCumber Denounces Surrender to Germany.
 Washington, Feb. 26.—Denouncing the Bolshevik surrender to Germany, Senator McCumber, Republican, of North Dakota, told the Senate that a "Bolshevik" sentiment in America was of no less danger to the cause of democracy against autocracy. Profiteers, labor slackers and government officials who fail to stand against them were assailed by the senator in vigorous terms.

Manitoba May Be "Movieless."
 Winnipeg, Feb. 26.—Manitoba may become a "movieless" province. The Canadian Film Exchange Managers' association is preparing to wage war on the Manitoba censor board and there is a possibility that the province's 80 moving picture theaters will have to close because the exchanges will cease to import films. The present status of the business here is that the exchange men complain that the censor board rejects the majority of the comedies submitted.

Swift Iceboat.

A strange winged sled has made its appearance on the smooth ice of Lake Placid in northern New York. Conditions being favorable for speed, it often sweeps along at a mile-a-minute clip, its tail gliding and its nose lifted in the air. Except for the fact that it doesn't fly, it might be described as a flying ice-boat. It consists essentially of a light frame supporting a monoplane and a 30 horse power motor with vertical propeller connected.

101 LOST ON RED CROSS STEAMER

Perish When Florizel, From Halifax to New York, Hits Rock in Storm.

FOE AGENTS BLAMED

Believed to Have Tampered With Compass Causing Pilot to Lose Bearings—Rescuers Brave Seas Despite Several Early Failures.

St. Johns, N. F., Feb. 26.—When the Red Cross liner Florizel piled on the rocks at Broad Cove, near Cape Race, 43 persons escaped death and were saved by the coast line steamer Prospero. This information came in a wireless message from the Prospero to John Crosbie, minister of shipping. The rescue ship reported she embarked the survivors safely.

101 Believed Dead.
 Three rescue ships brought the first batch of survivors to port and others are on the way. Among the survivors are five saloon and seven steerage passengers.

One hundred and one persons have perished, from among the passengers and crew of the ship, according to word reaching here. This places the death list higher than statements made by the owning company—the Red Cross line—which stated that 136 were aboard the Florizel.

Wrecked Through Treachery.
 It is believed the steamer was wrecked through German treachery. Scenes of indescribable heroism in the face of odds which seemed insurmountable took place as hardy Newfoundland seamen stoically donned life belts, piled into puny dories and battled with the mountainous waves of the angry Atlantic.

Boat after boat was launched in the gray light of dawn by men who had left rescue ships to add another tale of heroism to the romantic stories of bravery which go hand in hand with records of shipping in this vicinity.

Many Found Helpless.

Several fruitless efforts to get through the waves did not deter the efforts. Undaunted, they returned to their work and finally succeeded in getting a foothold on a portion of the ship above the water. Ropes which had been carried along were fastened to the ship and then run out to vessels standing by.

Life belts were hauled aboard the wreck and placed on the survivors, most of whom were unable at this time to stand alone. Some were practically unconscious. They were transferred to the small boats which had conquered the waves and taken to safety. The work of rescue occupied five hours.

Glass Industry in America.

Glass was first manufactured in America by the people of Jamestown, Va., during the year 1615. Commenting on this fact, John Smith lamented that "the labor of the colony has been misdirected in the manufacture of ashes, soap, glass and tar, in which they could by no means compete with Sweden or Russia." The inhabitants of Jamestown did not agree with this view, however, and soon afterward commenced the erection of a glass works, the completion of which was interrupted by the Indian massacre of 1622. The first glass factory in North America to attempt the industry on an ambitious scale was built in 1780, at Temple, N. H., by Robert Hewes of Boston. The workmen, 32 in number, were German deserters from the British army. The carelessness of a workman caused the destruction of the plant by fire in 1781. In 1803 a glass factory was established in Boston, and since that time the industry has flourished.

SAYS PACKERS GAINED BY LEAK

Counsel Charges Meat Men Exploited Advance Knowledge of Hoover Appointment.

EMPLOYES GET PLANS

Heney Declares Six Men Secured Positions to Head Off Any Action by Administration Detrimental to Packers.

Chicago, Feb. 26.—Advance information on the appointment of Herbert C. Hoover as food administrator was obtained and Chicago packers used their influence in Washington to obtain places for employees and "friends" on the food administration, it was charged before Joseph E. Davies, chairman of the Federal Trade commission, in the government's investigation of the packing industry.

Francis J. Heney, special counsel for the commission, read a collection of private letters read to and from Louis F. Swift, head of Swift & Co.; Arthur Meeker of Armour & Co.; Thomas E. Wilson of Wilson & Co.; and other big packers. The letters were seized in Heney's raid on the correspondence files of the packers.

Had Knowledge in Advance.

Mr. Heney said that the letters proved that the packers knew of the appointment of Mr. Hoover before the public was apprised of the event; that they had "inside" information that Joseph P. Cotten, a New York attorney, would be appointed head of the meat and livestock section of the food administration bureau even before official Washington was advised of it, and had confidential information on the attitude of the food administration before it was announced to the public and acted accordingly.

Mr. Heney said that at least six men who drew salaries from the packing companies and their subsidiaries were holding important posts in the Food administration. These men, he indicated, were placed in the Food administration for no other purpose than to head off any action which would be detrimental to the packers.

Every Appointee Discussed.

Virtually all of the letters read by Mr. Heney indicated the packers watched with deepest concern the evolution of the Food administration. Telegrams between the different large packers, sent over private wires maintained by them, showed that practically every appointee to the different departments of the Food administration was discussed by the packers with conjecture as to his attitude toward their concerns.

Names of two of the men who hold posts on the Food administration while drawing salaries from the packers were given out by Mr. Heney. They are E. O. Heyl, first assistant head of the department on the coordination of purchases, and W. F. Priebe, chief of the division of poultry and eggs and perishable markets. Mr. Heney said that Mr. Heyl is paid a salary by Libby, McNeill & Libby Co., a subsidiary of Swift & Co., while Priebe is head of the W. F. Priebe & Co., subsidiary of Swift & Co.

Mr. Heney further charged that while the packers were publicly opposed to the practice of re-selling foodstuffs they themselves violated the rule.

PLAN TO RESTORE MONARCHY

Germany Favors Former Empress Alexandra, is Report.

London, Feb. 26.—Germany plans to restore the monarchy in Russia, according to a telegram to the Morning Post. It says the Grand Duke of Hesse has been appointed the commander in the Riga section of the German front.

"His sister," the dispatch adds, "the former Empress Alexandra, as the guardian of her son, the former tsarevitch, is the favorite German candidate for the throne."

The former emperor will not accept the throne from German hands. The Bolsheviks have provided a form of government which the Russians alone understand—pure despotism. They have paved the way for the return of the monarchy.

More Earthquakes in Guatemala.

San Salvador, Republic of Salvador, Feb. 26.—Telegraphic communications with the interior of Guatemala is interrupted as a result of earthquake shocks of an extremely violent character.

Propaganda Drive is Failure.

With the British Army in the field, Feb. 26.—German war party propagandists have bungled the job and overcooked the pudding. Careful study of the west front reveals the fact that the most stupendous propaganda drive the Prussians have ever attempted, is a total failure. Despite utilization of every method to create a state of terror among troops and civilians, to increase tension and prolong the nerve-strain before the offensive, their methods have resulted in a fiasco.

DEADLY WEAPON OF WARFARE

German Albatross Is Probably the Most Powerful Machine That Has Yet Been Developed.

The tendency in airplanes has been to run to two extremes—for fighting, as small and fast as possible; and for bombing, as large and powerful as possible. In a three-seated, one passenger sits out in front mounted in a machine-gun turret. The pilot comes next, immediately behind the motor, while the second passenger sits behind him mounted in another machine-gun turret. This airplane is capable of carrying many hundred pounds of explosives and, being very fast and heavily armed, generally accomplishes its mission.

The German albatross is capable of a horizontal speed of 300 kilometers (about 187 miles) an hour. It is a single seater and carries three machine guns, which, being controlled by the motor, shoot automatically and simultaneously through the propeller. The sight of these weapons converges at approximately 50 yards in front of the airplane, making the chance of hitting the opponent three times as sure. The motor is equipped with an electric self-starter. It has also electrical devices for keeping the water warm in the radiator while flying at great heights. The wing surface is less than 20 square yards.—Scribner's.

Sheep Has Wooden Leg.

Charles Krauter, living near Bucyrus, O., had a lamb get tangled up in a fence and injure its leg. The veterinarian told him the leg had to come off. Krauter did not want to lose the lamb, so minus the leg he nursed it back to health and then fixed up a peg leg for it.

Now the lamb has grown to be a sheep and still stumps around on the wooden leg. Occasionally the wooden member becomes loose and falls off, and the sheep then hobbles over to a soft spot and waits until some one comes along to fasten the leg on again.

The wooden leg doesn't interfere with the sheep growing wool. Mr. Krauter says, and wool is wool nowadays.

 A PATRIOTIC MUSICAL COMEDY DRAMA

CONSERVATION DINNER FEB. 27

To be Given at Chamber of Commerce
With G. W. Smith as Good
Angel Donating Essentials

SHORT MEETING FOLLOWS

Business Quickly Transacted in Time
to Attend First Night of
"America Awake"

Plans for the Chamber of Commerce dinner, to be served Wednesday evening at 6 o'clock sharp, are practically completed, and the members and their friends are assured a very appetizing meal, which will not conflict with the wheatless and meatless days, but will conform with the government's recommendations.

Through the courtesy of G. W. Smith, the famous Cheer-Up products are to be used and hot griddle-cakes with maple syrup, Crow Wing county butter, Cheer-Up brand muffins and hot coffee will be served. The house and social committee met last evening and completed the plans for the dinner and it is believed that it will be largely attended, as the regular meeting of the Chamber of Commerce follows immediately after the dinner.

To Convene Early.

It is planned to convene early and to get all of the business transactions out of the way in order that all can attend the big Elks' show at the opera house.

The dinner should not take longer than 7 o'clock to serve and the Chamber meeting will be called promptly and will be out at 8 o'clock sharp.

Members are urged to remember that those who come first will be served first and that everything will be in readiness at 6 o'clock sharp.

The old slogan, "Bring a Friend" stands, and also bring your membership blanks, filled out, for the time is short in which the directors are to make good on the two memberships they signed up for.

This is the last call—Fair warning!

ACROBATS AT THE ELKS

Novelty Act Staged Which Will Create Excitement—Rehearsals Held Secretly

Speaking of acrobats we find that the Elks have been diligent in digging up our very best talent. There are a few pole vaulters and political hurdle jumpers that have offered their services for "America Awake" and place will be found for them on the program at the opera house Wednesday evening.

Andrew Berglund has volunteered his theatrical equipment also, consisting of the very latest scenery and costumes which he has been industriously collecting for several years at the Ransford hotel hoping to stage a beautiful ballet in which Andy Halstead and Ralph Sheets will be premier artists and John Hoffbauer will referee. Rehearsals have been secretly held for this stunt and if proper stage room can be provided for them at "America Awake," they will appear. Fred T. Lincoln has been coaching them in the new art and vouches for its finest. Ray Gould in turn vouches for Lincoln. Ought to be good for an Elks' show.

MISS IDA KRUEGER DIED

Daughter of Mr. and Mrs. Gust Krueger, Passed Away at Basin, Wyo. of Pneumonia

Miss Ida Krueger, age 19, daughter of Mr. and Mrs. Gust Krueger, died of pneumonia at Basin, Wyoming, on Monday morning at 7 o'clock. She was a member of the German Lutheran church and had attended school at Little Falls and in Wisconsin. For some time she had been a governess in an orphanage in Minneapolis. She had many friends in Brainerd and visited here at various times, once staying here a year.

She leaves her parents, five brothers, Edwin in the marine aviation corps; William, of Brainerd; Henry, in the navy hospital in Virginia; Alfred, of Wyoming, and Arthur of Brainerd; four sisters, Lydia, teaching high school in Wyoming; Olga, in the Brainerd high school; Sophie, attending school here and a little sister, Esther.

Mr. and Mrs. Krueger and daughter Sophie have gone to Wyoming to attend the funeral. The sympathy of the community is extended the family in its sad bereavement.

TRACTOR SCHOOL IN CITY SOON

International Harvester Co. to Give Instruction for Two Days, Dates Being Arranged

DIRECTION OF J. C. HESSEL

Speakers and Factory Men Coming From Chicago, Two Big Picture Shows to be Given

J. C. Hessel, representative of the International Harvester Company, is in the city arranging to put on a tractor school, free to all, two days in the near future. Watch for the advertised dates.

Speakers and factory men will be out from Chicago with charts and 5,000 feet of moving picture film to explain the tractors. Rosko Brothers have contracted for a large number of tractors and have taken the agency for a large territory in Minnesota.

Valuable instruction books will be given away free to attendants. Two large interesting picture shows will be given during the two days and the tractor school is expected to draw many farmers to Brainerd from the surrounding country.

PATRIOTIC PUNCHES
Issued by Publicity Department, Commission of Public Safety through the United Press.
The common talk among men and women, who should be ashamed not to know better, that our camps and cantonnements are breeding places of vice and immorality. This is a wicked and heartless falsehood. If our young men are taken captive by the devil, it usually takes place before not after enlistment. A unanimous and convincing witness comes from all really authoritative sources that military discipline, supported by and accepted in a spirit of true patriotism, is a wonderful regenerating force for body, mind and soul.
Bishop P. M. Rhinelander.

INDIAN TREATY ATTACKED
United States Circuit Court of Appeals Upholds Decision Convicting Indian Man

Validity of the Indian treaty of 1855 and its application to keep liquor out of northern Minnesota, has again been upheld in the courts, in a decision by the United States circuit court of appeals at St. Louis, affirming the conviction of J. O. Harris, proprietor of a hotel at Kelliher. Harris had been convicted in federal court at Duluth of introducing liquor into dry territory, and his attorney attacked the validity of the act of congress giving the treaty provisions on liquor the force of law.

This attacked the "lid" from a new angle, but the case will be appealed to the United States supreme court, which has once decided in favor of the validity of the treaty.

Card of Thanks

We wish to thank friends and neighbors of Brainerd and Hastings for the kindness and sympathy shown us on the passing away of our little one, called to a brighter home beyond. We shall ever treasure in grateful memory their words and deeds of sympathy.

Minot Laboratory in Charge of Burton C Ford Closed, When Latter Called in Draft

Lutheran War Work Fund Goes "Over the Top" and Fargo's Minimum Oversubscribed

(Fargo Forum, Fargo, N. D.)

Minot Laboratory Closed

Burton C. Ford, in charge of the Minot branch of the state public health laboratory, has been called by the draft. Announcement was made shortly before his departure for Brainerd, Minn., that the laboratory would be closed. It is expected that the state board of regents will take action in having the office reopened.

Rosenzweig at Courthouse

Sam Rosenzweig, employed by the Ransford hotel at Brainerd, was a visitor at the Cass county courthouse in Fargo this morning. Mr. Rosenzweig came up from Brainerd last night to learn his classification in the draft. When advised that he was placed in class 5 and would not be called on for military service, Sam told the employees that it's a case of buying more Liberty Loan bonds and thrift stamps.

Lutheran War Work in Fargo.

Fargo has given \$1,333 for war work among 200,000 American soldiers and sailors of Lutheran faith, oversubscribing its minimum quota of \$1,200 more than 15 per cent, according to reports given at the meeting of campaign workers with J. G. Halland, Fargo chairman. In St. Mark's English Lutheran church Wednesday evening. All four of the churches in the drive reported oversubscriptions.

JAMES W. EVANS.

Producer of "America Awake"

The advance ticket sale for the Elks' Red Cross show to be given Wednesday and Thursday night, shows every indication of a capacity house both nights.

Those who have witnessed the rehearsals say that Brainerd is to be given the best local production ever seen here and the character of the play is very apropos of the times.

No time or effort has been spared to make the cast "letter perfect" and the brilliant specialties which support the popular patriotic music are new and up to the minute.

Throughout the play the present day characters of the sterling American, the pacifist, the veteran of other struggles and the I. W. W. are all brought out with just enough of a love plot intermingled to act as the vehicle for bringing the opposing sentiments together and finally bringing about a union of ideas and a singleness of purpose regarding the present world conflict.

Careful arrangement of the speaking lines and close attention to the forceful detail makes each climax a marked advance in bringing out the great loyalty scheme of the play.

CREAMERY FOR SALE

Sealed bids will be received by the receiver of the Farmers Produce Co. at his office in the Walker block in Brainerd, Minn., up to and including March 9, 1918 for the sale of the tools and machinery of said Co.

The plant is well equipped and doing a fair business and the machinery consists of steam boiler, ice cream freezer, ice breaker, tubs and cans, 5 H. P. motor, churn, ripener, bottle capper, ice box, and all other necessary tools together with office furniture.

A list will be furnished all persons interested. The right to reject all bids reserved.

SAVE THE WASTE AND WIN THE WORLD WAR

(Continued from page 1)

making it hard for Germany to prove that the war of 1914 was forced upon her.

The savage Maoris in their warfare were more civilized than the Germans with their poison and gas.

She praised the work of the women in the war. Humanity was being lifted to a higher plane.

"When 100,000,000 Americans are spiritually awakened," said Mrs. Wade, "that day will sound the doom of Germany."

Mrs. Wade gave a fine loyalty address, but devoted only a small part of her address to food conservation. And the latter was the main purpose of the meeting. Coming directly as a representative of Herbert Hoover, United States Food Commissioner, people wanted to hear her message on conservation, not on war, its causes, its political aspect, etc.

She reiterated the appeal of the government for the saving of five things, wheat, pork, beef, butter, sugar.

Applause was frequent throughout the address of Mr. Wilson and the address of Mrs. Wade. It is estimated that they spoke to close to 2,000 people in Brainerd. This included the opera house meeting, conference of chairmen of counties in the sixth congressional district woman's auxiliary of the public safety commission, conference of town and township chairmen of Crow Wing county's woman's auxiliary and the school meetings. Mr. Wilson answered innumerable questions. Altogether the visit of the two speakers was one which did a world of good and showed to many the need of food conservation and of using the substitutes asked by the government.

ROLL OF HONOR

Leslie D. McQuillin and Norman J. Holden, prominent in athletics in the Aitkin high school, have enlisted in the infantry, their applications having been received by Corporal Raymond Lowery. This now makes every member of the senior class of Aitkin high enlisted under the colors.

Walter J. Neve of Aitkin, has joined the infantry, the application having been received by Corporal Raymond Lowery.

On March 4 the local recruiting office will send eight men to the front, all having been secured by Corporal Raymond Lowery.

Irwin C. Cain, familiarly known as Ed to all his friends, called in the May contingent, went to the local board early Friday and asked to be inducted into immediate service and was accepted, leaving with the Crow Wing county contingent for Camp Dodge, Iowa.

Elmer Palm of Ironton, was wounded in the Canadian Overseas forces, according to a Monday's casualty list given out in Ottawa, Canada.

A farewell party was given Ansel Sandberg, a soldier boy, at the W. E. Lively residence. There were 26 present. There was a program of speeches, songs, etc., and a luncheon served. Mr. Sandberg was presented with a kodak.

MERRIFIELD NOTES

Joe Tutch is hauling logs to the Larson mill so he can get some lumber to build a garage.

Thursday night a farewell dance was given in honor of Melvin Stropp, Melvin Gordon, John Paas and Fred Hazelton who left Saturday for training camp. A large crowd attended and all had a good time.

Mr. and Mrs. Joe Willard of St. Paul, are visiting her sister, Mrs. Geo. Cossette.

Alton Niles, who was home for a few days, returned Friday to Jefferson Barracks, Missouri.

Irene Cossette, Axel Larson, Florence Larson and Mary Cossette enjoyed a sleigh ride to Brainerd last Saturday night and took in the shows. They all had a good time.

New N. P. Book

"Silos and Silage" is the name of the latest book issued by the Northern Pacific Railway. A copy has just reached this office, and contains much information of value to farmers.

The author, Professor Thomas Shaw, is a well known authority on soil culture and agricultural subjects and has interpolated several valuable suggestions on the handling of these products as storage. He also gives hints on the proper housing of ensilage and illustrates his work by a number of excellent farm scenes.

A copy of "Silos and Silage" may be secured by writing to L. J. Bricker, General Immigration Agent of the Northern Pacific Railway at St. Paul, Minn.

Hacking Coughs

"Granny" Chamberlain

"For Hacking Coughs that rob you of your sleep till your system becomes so run down that you are in grave danger of Pneumonia or Consumption, the kind that almost tear you to pieces, that make your head ache, your throat sore and inflamed, take

Chamberlain's Cough Remedy

It soothes and heals the inflamed air passages, stops the tickling in the throat, and by its tonic effect enables you to throw off the disease. Chamberlain's Cough Remedy is quite different from the ordinary cough medicine, for it not only soothes but also heals, so that the effected parts are restored to a healthy condition and the danger of a future attack is removed. I firmly believe that it is the best and most reliable preparation ever produced for coughs and colds."

"WHO WILL WIN THIS BATTLE?"

Your kidneys are the filters of the body. If they become inactive and fail to eliminate the waste matter, they are apt to throw the whole mechanism of the body out of order, thus toxic poisons can accumulate in the system and be as deadly as snake venom.

Besides causing the minor ailments of rheumatism, sciatica, lumbago and backache, neglect of the kidneys is apt to develop into more serious diseases, such as diabetes or stone in the bladder.

Rid the body of toxic poisons—clean the bladder and kidneys and cure the twinges of rheumatism with Anuric and you win the battle of life.

Anuric was first discovered by Dr. Pierce, and has benefited thousands of sufferers as well as appeased and eliminated the ravages of the more serious kidney diseases. Now procurable for 60 cents at any good drug store, or send Dr. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., 10 cents for trial package.

STILLWATER, MINN.—"If I can do any good in the world for others, I wish to do it, and I feel that it is my duty to write about the wonderful results I received from the use of 'Anuric.' I was suffering from kidney and bladder troubles, scalding, backache and rheumatism, and feet and ankles swelled so that at times I could not walk without assistance. Had taken several different kinds of kidney remedies but all failed. I sent to Dr. Pierce for his new discovery, 'Anuric,' which I soon got better and am convinced that this popular new medicine is good. I wish to recommend it to my neighbors and everybody suffering from such troubles."—Mrs. M. J. SARGENT, No. 1321 North Broadway.

ARMY CLOTH IS STOLEN

Uniform Material Worth \$5,000, 000 Missing.

Eleven Suspects Indicted in New York Include Manufacturers and Employees—Plot Revealed.

New York, Feb. 22.—The federal grand jury here has indicted eight clothing manufacturers, two employees and a clerk in the quartermaster's department of the army, charged with being concerned in extensive army uniform cloth frauds.

Cloth and other army supplies, approximately worth \$5,000,000 were stolen, according to Lieutenant Geo. D. Barnitz of the New York police force, who, in connection with the federal authorities, investigated the alleged frauds, which, he said, included thefts in other parts of the country. He asserted that a plot of nationwide proportions had been uncovered and that investigations in other cities would be undertaken.

of Proclamation and Order No. 25 of the Minnesota Commission for Public Safety, wherein February 25th, 26th and 27th, 1918 are designated as

Alien Registration Days throughout the entire State of Minnesota and orders as follows:

1st. That every alien shall register on one of the above dates and make sworn declarations as to real estate and personal property holdings as prescribed by the Minnesota Commission of Public Safety.

2nd. Each City Clerk shall provide necessary and suitable places for registration of aliens.

3d. Each City Clerk shall cause general and widespread publicity of the dates and purposes of the said registration days.

4th. Each Clerk of Registration who may be selected by the City Clerk is hereby deputized as his agent by the Minnesota Commission of Public Safety to administer the oath appearing on the registration blank.

5th. Any alien resident of the State of Minnesota who fails to register and make prescribed declaration on one of the above designated registration days will be interned or subjected to other action which the Minnesota Commission for Public Safety will prescribe.

6th. Provided, however, that no aliens registered under the Department of Justice, and who owe allegiance to the German Imperial Government need register.

7th. The Minnesota Commission of Public Safety requests, that election judges and clerks serving at the last general election and other patriotic citizens will volunteer their services to the nation and state and co-operate with the City Clerk in the administration of this order, to the end, that the work may be accomplished with the least possible expense and also solicits the hearty and liberal co-operation of the patriotic press of the state in acquainting the public at large with the text of this proclamation and order.

Also, It will be greatly appreciated if the pastors of the various churches in the city will announce the text of this extract from their respective pulpits on next Sunday (February 24th). The registration will be conducted at the Municipal Court Room in the City Hall on above noted days from 7 o'clock A. M. till 9 o'clock P. M.

Any assistance needed will be given to arrive at a true status of each registrant under this order.

MAP OUT GENERAL PLAN

Hoover And McAdoo Meet And Pool Differences.

Arrangements Are Made To Speed Movements of Food For Allies Over Railroads.

Washington, Feb. 26.—A general plan for the immediate movement of large stocks of supplies to the Allies has been mapped out by Herbert C. Hoover, the food administrator, and William G. McAdoo, director general of railroads, who have pooled all their differences.

With Mr. Hoover declaring that this country is 13,000,000 bushels behind its shipments, Director General McAdoo wasted no time, quibbling and said he would put the cars wherever Hoover would suggest. Hoover maintains that there is a deficiency of thousands of cars in the grain sections of the West.

After a two-hour conference committees were appointed to work out the whole transportation problem. They will represent all the war-making branches of the government. They will be called upon to gather absolute data regarding the amounts of supplies purchased by the food administration and the Allied agents, where located, the transportation available at the points of loading and the number of cars required; the points to which they are to be sent, and the ships at these terminals ready to receive the cargoes.

WOULD SAVE RUSS CAPITAL

Military Dictator With Unlimited Powers Named.

Amsterdam, Feb. 26.—Still hopeful that the Red guards and workers will rally to a real defense of the threatened capital, the Bolshevik government has named a military dictator. Unlimited powers have been given General Brukewitch, hitherto assistant to Ensign Krylenko. The latter has been removed as Bolshevik generalissimo, for the reason, it is believed, that he despaired of all chances to save the capital.

Incensed over Krylenko's pessimism, the account of the last meeting of the soviet's executive council, a Socialist tried to kill him. Krylenko was wounded in the arm by a bullet. The would-be assassin was arrested.

Grand Duke Charged With Treason.

Zurich, Feb. 26.—Grand Duke Nicholas, uncle of Nicholas Romanoff and former commander-in-chief of the Russian armies, will be tried before a revolutionary tribunal for high treason, according to a Russian dispatch published in the Breslau Tageblatt. The Grand Duke Nicholas was reported to have been arrested by Bolshevik sympathizers in Tiflis June 2, following nationalist riots.

The estimate is based on revised statistics.

TELLS CHANCES FOR AGREEMENT

Herting Says Germany Accepts Wilson's Four Principles as Basis for Peace Parley.

ONE CONDITION MADE

Declares All Peoples Must Endorse Offer and That Goal of World Arbitration Court Has Not Been Reached.

Amsterdam, Feb. 26.—The imperial German chancellor, Count von Hertling, speaking before the Reichstag, made this declaration.

"I can fundamentally agree with the four principles, which in President Wilson's view must be applied in a mutual exchange of views, and thus declare with President Wilson that a general peace can be discussed on such a basis.

"Only one reserve need be made in this connection: These principles must not only be proposed by the President of the United States, but also must actually be recognized by all states and peoples."

"But this goal has not yet been reached. There is still no court of arbitration established by all the nations for the preservation of peace in the name of justice. When President Wilson incidentally says that the German chancellor is speaking to the tribunal of the entire world, I must decline this tribunal as prejudiced, joyfully as I would greet it, if an impartial court of arbitration existed and gladly as I would co-operate to realize such ideals.

"Unfortunately, however, there is no trace of similar statements on the part of the leading powers of the Entente. England's war aims are still thoroughly imperialistic and she wants to impose on the world a peace according to England's good pleasure.

Challenges Britain's Claim.

"The world is longing for peace," the chancellor said, "but the governments of the enemy countries again are inflaming the passion for war. There are, however, other voices to be heard in England; it is to be hoped these voices will multiply.

"The world now stands before a final decision. Either our enemies will decide to conclude peace—they know on what conditions we are ready to begin a discussion—or they will continue the insanity by their criminal war of conquest."

He continued: "Our people will hold out further, but the blood of the fallen, the agonies of the mutilated and the distress and sufferings of peoples will fall on the heads of those who insistently refuse to listen to the voice of reason and humanity."

The Four Principles.

The four principles outlined by President Wilson in his address of February 11, referred to by Count von Hertling, the German chancellor, in his speech before the Reichstag, are:

"First, that each part of the final settlement must be based upon the essential justice of that particular case and upon such adjustments as are most likely to bring a peace that will be permanent.

"Second, that peoples and provinces are not to be bartered about from sovereignty to sovereignty as if they were mere chattels and pawns in the game, even the great game, now forever discredited, of balance of power; but that.

"Third, every territorial settlement involved in this war must be made in the interest and for the benefit of the population concerned, and not as a part of any mere adjustment or compromise of claims amongst rival states, and.

"Fourth, that all well defined national aspirations shall be accorded the utmost satisfaction that can be accorded them without introducing new or perpetrating old elements of discord and antagonism, and that would be likely in time to break the peace of Europe and consequently the peace of the world.

"A general peace erected upon such foundations can be discussed. Until such a peace can be secured we have no choice but to go on. So far as we can judge, these principles that we regard as fundamental are already everywhere accepted as imperative, except among the spokesmen of the military annexationist party in Germany."

\$1,000,000 Given to McGill.

Montreal, Feb. 26.—The Carnegie corporation has presented McGill university with \$1,000,000 in recognition of the institution's devoted service and sacrifice toward Canada's part in the war.

Calls For Pension in Auto.

Bute, Feb. 26.—Silver Bow county expends huge sums annually for the relief of the poor, but when a woman drove up to the office of the commissioners in an auto and asked aid, the officials bucked. She had been drawing a pension for herself and two children, as a widow, for some time. Officials discovered, in inquiry started on her appearance in an auto, that she had remarried a man of means. The pension has been cut off and prosecution may follow.

CONDEMN LA FOLLETTE

Solon Is Denounced by Senate of His Own State.

Bitter Attack Made on Senator by Resolution Passed by 26 to 3 Vote.

Madison, Wis., Feb. 26.—The state senate has passed, by a vote of 26 to 3, the loyalty resolution, including an amendment condemning Senator La Follette for his attitude toward the war.

Critics of the Wisconsin senator attacking his attitude read into the record La Follette's St. Paul speech and editorials printed in his magazine.

Denounce His Speeches.

"The people of the state of Wisconsin always have stood and always will stand squarely behind the present war to a successful end. We condemn Senator Robert M. La Follette and all others who have failed to see the righteousness of our Nation's cause, and have failed to support our government, in matters vital to the winning of the war.

"And we denounce any attitude or utterances of theirs which has tended to incite sedition among the people of our country, and to injure Wisconsin's fair name before the free peoples of the earth."

Speaker Says "Traitor."

Bitter attacks were made in the upper house on La Follette.

State Senators Witter, Bennett and Hanson led in the attacks. They were in answer to Senator Huber's vindication of La Follette Saturday. "I consider La Follette a traitor, and all languages could be exhausted in an effort to find fitting words to denounce him," declared Senator Hanson.

"Every man who is against the government of the United States in the present world crisis regards La Follette as a patron saint. He has sustained President Wilson the same way that Judas sustained Christ," Senator Bennett said.

Birds' Christmas Dinner.

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder bothers—Meat forms uric acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in uric acid, so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

MAZOLA
Better cooking at less cost with Mazola, the pure oil from corn
Mazola is a vegetable oil from an edible source for deep frying, sautéing, shortening and salad dressings.
Foods fried in Mazola retain all of their natural flavor and are easy to digest.
Mazola does not transmit taste or odor from one food to another—can be used over and over again—a big factor in economy.
And because Mazola is a vegetable oil, it enables you to follow the plans of the Food Administration and save animal fats—butter, lard, suet.
Get Mazola from your grocer in pint, quart, half-gallon and gallon tins. Also ask for the free Mazola Book of Recipes—or write us direct.
Your money refunded if Mazola does not give entire satisfaction.
